Objective

Computer Science Engineering student seeking a Cloud Computing Internship at SkyNet Solutions to apply skills in AWS, Python, and DevOps to develop scalable cloud applications.

Education

B.S. in Computer Science Engineering

Expected May 2026

University of Cloudville, Cloudville, ST

GPA: 3.7/4.0 | Relevant Coursework: Cloud Computing, Operating Systems, Networking

Skills

- Technical: Python, AWS (EC2, S3, Lambda), Docker, Git
- Analytical: Cloud Performance Optimization, Debugging
- Soft Skills: Teamwork, Communication, Problem-Solving

Experience

Cloud Lab Assistant

University of Cloudville

Sep 2023 – Present

- Developed Python scripts to automate AWS resource deployment, reducing setup time by 12%.
- Monitored cloud performance using AWS CloudWatch.
- Collaborated with a team to deploy a cloud-based web application.

Intern

CloudTech Solutions

Summer 2023

- Assisted in configuring EC2 instances for a client project.
- Wrote scripts for automating S3 data backups.

Projects

Cloud-Based App Deployment

Spring 2024

- Built a scalable web app using AWS Lambda, improving response time by 10%.
- Presented project at the University Tech Symposium.
