Objective

Artificial Intelligence Data Science student seeking a Machine Learning Internship at IntelliData Labs to apply skills in Python, TensorFlow, and data analysis to develop predictive models.

Education

B.S. in Artificial Intelligence Data Science

Expected May 2026

University of Datatown, Datatown, ST

GPA: 3.8/4.0 | Relevant Coursework: Machine Learning, Data Science, Statistics

Skills

- Technical: Python, TensorFlow, Pandas, Scikit-Learn
- Analytical: Data Preprocessing, Model Evaluation
- Soft Skills: Communication, Team Collaboration, Analytical Thinking

Experience

Data Science Assistant

University of Datatown

Jan 2024 – Present

- Built machine learning models using TensorFlow, improving prediction accuracy by 15%.
- Preprocessed datasets with Pandas for pattern analysis.
- Collaborated with a team to develop a recommendation system.

Intern

AI Innovations

Summer 2023

- Assisted in training neural networks for image classification.
- Visualized data trends using Python libraries.

Projects

Predictive Analytics Project

Fall 2023

- Developed a regression model to predict sales trends, achieving 90% accuracy.
- Presented findings at the University AI Conference.
